The Dead Lock at the Capital.

Rumor had it that Henry S. Walker had said that if some of the leading opponents in the caucus were withdrawn, he would receive the nomination of the Democratic party. Our special dispatches published yesterday morning showed that Mr. Walker had counted without his host, Mr. Camden, regarded as his strongest opponent, was unconditionally withdrawn, nevertheless the crown of victory did not descend upon the waiting brow of Mr. Walker. The opposition to his nomination has only been intensified; the very gall of bitterness has been stirred up in the hearts of his enemies, who are both many and powerful.

For days our Market street neighbor has been in a state of perturbation over the "dead lock" at the Capital. Its virtuous indignation arose almost to the sublime when it contemplated the money value of the time already expended in the vain attempt to invest one of two bold aspirants with the Senatorial purple.

It did not scruple to point out good reasons for pitching overboard the men who had proved themselves a dead weight on the party and were fast becoming a serious obstacle to all legislation. The Senatorial struggle is essentially a Democratic fight; the Republican members of the Legislature are mere lookers-on. Day after day they have witnessed the struggle in the joint session, night after night they have listened to the wrangling in the bear-garden of the Democratic caucus, and fortunately they can contemplate the face with the utmost indifference. The unhappy jar in the Democratic family, with its attendant waste of the people's money, is in no way attributable to the status of the Republican members of the Legislature with regard to the Senatorial candidates put forward for the prominent honors. They stand ready to give their best efforts to the legitimate business which they were elected to transact in the interest of the whole people.

The Democratic leaders claim that Walker and Camden have done much for the party, but it needs no acute observation to discover that neither one of them have ever spent an hour of his time or a dollar of his money with other than the palpably sordid motive of promoting schemes for his own aggrandizement. The good of their party has ever been subservient to their ambition. Thrice have the pretensions of Mr. Camden been rejected by his own party, who have recognized that he spent his money in order to create a mortgage on the gratitude and fealty of the party, with the Senatorship as the terms of release.

The claim of Henry S. Walker to Senatorial honors is an enigma that the people of the First District at least are unable to solve. The location of the capital at Charleston, to the present disgust of the people of nearly the entire State, is mainly attributable to his persistent and unmitigated abuse, poured out with Satanic malignity against every member of the State government, executive, legislative and judicial, while it remained in the city of Wheeling.

When the Democracy assumed control of the State Henry S. Walker became its evil genius, and has continued to be such unto the present day. In his public character his every act has been but to taint with fraud and corruption. At his instance the printing law was so manipulated, as that his successor has been enabled to charge, without any legal foundation, for an insignificant job, more than twenty times its value. There yet hangs over his own head as Public Printer the charge of a stupendous fraud. The representatives of the people cannot support him without sharing his infamy. What wonder, then, that the organ of the party he professes to serve, shrinks from the task of supporting a man whose heart is callous to every touch of honor and who has not even the sense of shame to redeem his character.

In December the *Druggist's Circular* of New York published an account of a man in Gilroy, California, who is in the habit of taking large quantities of strychnine after a protracted debauch, in order to counteract the effects of whisky, and a recent number of the *Gilroy Advertiser* corroborates the story. He has been known, under such circumstances, to eat the eighth of an ounce of this deadly poison in a few hours, without experiencing deleterious effects; but, on the contrary, after allowing a few doses of the stuff, he would quickly recover from excessive nervousness and prostration. He has been in the habit of using the drug for this purpose since 1856. They must have wonderful whiskey in Gilroy, when a man is compelled to resort to strychnine to tap off on.

The Cincinnati *Gazette* speaks of the return of the revival season in that city, and of increased religious interest, especially in the Methodist churches. This revival has also extended to the Protestant Episcopal church, the evangelist Rev. P. B. Morgan, who is employed by the Evangelization Society of the church, having held a series of services, preaching every day at noon and also holding evening services. These services have been kept up three weeks. (They used to be called protracted meetings when confined to non-Episcopal denominations.) These services were held in different churches, and seem to have been union services of all the Episcopal churches. The sermons of this evangelist, or revivalist, are extemporaneous and eloquent. He goes from Cincinnati to Nashville.

The extent of the territory devastated by the grasshoppers in the West is larger than was at first supposed. The Commissioner of Agriculture estimates the devastated area to be about 200 miles north and south, and about 500 miles east and west, altogether an area of 100,000 square miles, or a district nearly one and a half times as large as New England.

French Finances.

The full *Ministère des Finances* says: "The report of the Minister of Finance shows that the expenditure of France again tends to grow more rapidly than the income. The deficit which in 1873 amounted to 209,000,000 francs, fell in 1874 to 62,000,000. The Budget for the present year shows a deficit of 64,000,000, and that for 1875 a deficit of 84,000,000. The Minister has been driven by the steady resistance of the Assembly to abandon all idea of imposing new taxes. The meaning of this is that every tax, except an income tax, is disliked by financial experts, while an income tax, though financially sound, is too unpopular to have a chance of being adopted, especially by an Assembly which knows before long it must give account to its constituents. Out of this way from trying new ways of raising money, M. Bodeit is trying to raise more money in the old mode of collection, and a stricter control is to be exercised over brewers, distillers and sugar refiners. By these means the minister hopes to convert a deficit of 88,500,000 into a surplus of nearly 6,000,000. On paper this is highly satisfactory, but in practice there is reason to fear that by refusing to create new taxes the Assembly has only shifted unpopular taxation to its own shoulders to those of the Executive."

PASTORAL CALL.—The congregation of St. Paul's Church, Petersburg, whose rector is Rev. Dr. Wingfield, just elected Bishop of California, have called the Rev. Walter G. Huihien, rector of Trinity Church, Staunton, to fill the place. The salary is \$2,500 per annum. The call is a high compliment to the rector of Trinity, being to fill the place of one of the most distinguished ministers of the Episcopal Church, but it is earnestly to be hoped that it will not be accepted. Not only three Episcopalians and two Democrats, who would be disappointed, but Mr. Huihien's acceptance would be a loss to the community at large not easily repaired.—*Staunton Vindicator*.

IN the list of observations of the transit of Venus, it is now stated that Dr. Peters made the most successful, so far as the Southern Stations are concerned. Two points, however, Chatham Island and Kerguelen are yet to hear from.

Onto Legislature.

Contracts, February 3.—In the House this afternoon, after some mild filibustering, Lewis' bill to amend the Adair liquor law, by compelling the filing of a written notice with the corporation clerk ten days before bringing suits for damages, was defeated, it lacking three votes of passage. This should not be taken as an indication of the feeling of the House on this subject, as several members who voted against this bill favor an amendment to the law, and will so vote when the Reese bill, which has already passed the Senate, comes up for passage in the House.

WASHINGTON.

WASHINGTON, February 3.—Wm. M. Tenny, now of Corning, Iowa, but in the spring of 1873 general manager of the banking house of Jay Cooke & Co., was before the Ways and Means Committee to-day investigating the Pacific Mail subsidiary business, and identified two checks for \$50,000 each, and cash drawn by the Brooklyn Trust Co. May 30, 1872, on the Marine National Bank of New York, by one Schumaker, and also recognized two certificates of deposit issued by Jay Cooke & Co. to Schumaker on June 3, and June 5, 1874, for \$90,000 and \$90,000 respectively. The first certificate of deposit was doubtless retired by the issuance of the second certificate. Mr. Tenny will be examined again when the books of Jay Cooke & Co. are produced.

Speaker Blaine has not yet filled the vacancies of the Committee on Rules caused by the resignations of Messrs. Cole and Randall. The committee consisted of the following: Messrs. Lewis, Cameron, Okey Johnson, and two Democrats. Other Democrats privately say they would under the present circumstances refuse to be placed on the committee.

The Civil Rights bill is now directly before the House and the Senate bill has been offered as a substitute. It will be discussed all day, as the previous question cannot be seconded before to-morrow, except by a two-thirds vote.

SENATORIAL ELECTIONS.

WISCONSIN.

CHICAGO, February 3.—A special to the morning papers states that at a late hour last night the Democrats in the State Legislature of Wisconsin nominated James Cameron, of Union County, for United States Senator, and that it is understood enough of the ballot will unite on Cameron to secure his election to-day.

MILWAUKEE, Wis., February 3.—The eleventh ballot for United States Senator this forenoon resulted in the choice of James Cameron, of Union County, by the following vote: Carpenter 69, Cameron 68, Hadden 8, and J. G. Clark 1. This result was brought about by a coalition of the Democrats with the bolting Republicans. The latter offered the Democrats four names from which they might choose a candidate, viz. Judge Cole, ex-Governor Lewis, General Guppy and Angus Cameron. The Democratic caucus last night nominated Cameron conditionally upon his acceptance of the platform that includes a hard money tariff for revenue only, and the supremacy of the civil authority.

CINCINNATI, February 3.—A dispatch from Huntington, W. Va., gives the following as the result of the ballot for United States Senator in joint session to-day: Walker 22, Goff 15, Price 15, Brannon 13, Johnson 8, Camden 6, Faulkner 4, Dennis 2, Pennington 1.

The Great Wind Storm.

OMAHA, February 3.—The terrific wind which commenced at Chicago yesterday morning and here yesterday evening continued with unabated fury. The thermometer ranges below zero. It has now moderated somewhat. At Chicago and North Platte there is great suffering among the poor people. No loss of life is reported. The C. & N. W. train due here to-day is weather-bound at Marshall, Iowa. The western bound train on the Midland Pacific last night was thrown down an embankment by a broken rail near Bennett, Neb. The baggage and passenger cars were completely wrecked and several passengers wounded.

Correll, head bruised; Mary Hall, dangerously injured and recovery considered doubtful; Miss Jenkins, of Brownsville, shoulder dislocated; Mrs. Raymond, slightly hurt; Tom Egan, the confidant, was seriously injured; the brakeman, whose name could not be ascertained, had his shoulder hurt.

The passengers were taken to Bennett on the engine.

The station building at Greenwood, Neb., burned to the ground this morning, together with the contents.

One hundred sacks of Australian mail will pass through here from the West to-morrow.

Louisiana Investigation.

WASHINGTON, January 3.—The Congressional Committee resumed their investigation to-day.

Chas. W. Burt—Resides in Shreveport; has resided there two years and a half; occupation merchant; is from New York; was very cordially received by the people. Witness' social intercourse with the people of that city and the fact of his occupation was not a fair one. The way in which the Savings Bank was managed made a great many colored men Democrats, who voted with the Conservative party in order to secure good government. Witness was disgusted with the claims of the radical speakers who pretended that the negroes would again be reduced to slavery, and by trying to control their votes in that way. Witness had been a slave; his place was that of a confidential Virginia servant, and could not well say that his condition now was much better than it was before the war; that the negroes were not free, and the colored man who behaved himself at all were treated like the whites. All threats made by the whites to discharge could not have been carried out, and did not affect the colored men because every body knew the planters were obliged to have hands until January to help get ready for the coming year. The negroes in the parish were not afraid of any trouble about obtaining work, although they depended upon their labor for their living; generally the colored people are on the most friendly terms with the whites; negroes get justice before a white jury; the colored man is not afraid of the nigger vote; the white ticket; some would not vote the Republican ticket from party dissatisfaction; the intelligent negroes believe that their interest is identified with that of the whites, which is the reason they give for voting with them;
